

Seoung Hoon Park, Ph.D.

Assistant Professor of Health and Human Performance
University of Houston

Email: shpark5@uh.edu
Mailing: 3875 Holman St. Rm 104 Garrison
Houston, TX 77204-6015
Phone: +1 713-743-5291
Lab website: MoNeLab.net

EDUCATION

Postdoctoral Training in Neurorehabilitation 2019-2022
Shirley Ryan AbilityLab and Northwestern University Chicago, IL, USA
Mentor: Ming Wu

Ph.D., Kinesiology – Motor Neuroscience 2014-2019
University of Florida Gainesville, FL, USA
Dissertation: Low-frequency Oscillations in Force Output - Relevance to Healthy and At-risk-for-stroke Older Adults
Mentor: Evangelos A. Christou

M.S., Kinesiology – Motor Learning and Control 2010-2012
Seoul National University Seoul, South Korea
Thesis: Differential contribution of visual and auditory information to accurately predict the direction and rotational motion of a visual stimulus
Advisor: Seonjin Kim

B.S., Kinesiology 2004-2010
Seoul National University Seoul, South Korea
* 2-year compulsory military service (2005 - 2007)

PROFESSIONAL EXPERIENCE

Presidential Frontier Faculty Assistant Professor on Tenure Track 2022-Date
Department of Health and Human Performance
Department of Communication Sciences and Disorders
Department of Clinical Sciences
University of Houston

Postdoctoral Research Fellow 2019-2022
Legs + Walking Lab, Shirley Ryan AbilityLab Chicago, IL, USA
Department of Physical Medicine and Rehabilitation, Northwestern University

Graduate Assistant 2014-2019
Department of Applied Physiology and Kinesiology, University of Florida Gainesville, FL, USA

Graduate Assistant 2010-2012
Motor Behavior Laboratory, Seoul National University Seoul, South Korea

RESEARCH FOCUS

- Neurophysiological mechanisms responsible for impaired motor control and learning in older persons and individuals with neurological diseases (stroke; spinal cord injury; cerebral palsy)
- Developing neurorehabilitation tools and protocols for improving motor control and function with emphasis on walking and balance in people with neurological diseases
- Behavioral and neural changes in response to rehabilitative interventions in individuals with neurological diseases

8. **Park SH**, Neha Lodha & Christou EA. Greater asymmetry in motor control for TIA. *The D. K. Stanley Lecture Series, College of Health & Human Performance, University of Florida*, 2016.
7. **Park SH**, Kwon MH, Solis D, Lodha N, & Christou EA. Motor control differs for increasing and releasing force. *Graduate Student Research Symposium, College of Health & Human Performance, University of Florida*, 2015.
6. **Park SH**, Kwon MH, Solis D, Lodha N, & Christou EA. Motor control differs for increasing and releasing force. *Graduate Student Research Day, University of Florida*, 2015.
5. Corti M, Casamento-Moran A, **Park SH**, Faris KJ, Piepenbrink B, & Christou EA, Subramony SH, Byrne BJ. Biomarkers in Friedreich's Ataxia: Identifying Appropriate Clinical Trial Endpoints. *CTSI Research Day, Clinical and Translational Science Institute, University of Florida*, 2015.
4. **Park SH**, Kim SJ & Christou EA. Different contribution of visual and auditory information to accurately predict the direction and type of stimulus. *The D. K. Stanley Lecture Series, College of Health & Human Performance, University of Florida*, 2015.
3. Kim C, **Park SH**, Paez C, Lodha N & Christou EA. Low-frequency oscillations in force and muscle activity relate to force variability during sinusoidal tasks. *10th Annual Neuromuscular Plasticity Symposium, College of Public Health and Health Professions, University of Florida*, 2015.

2. **Park SH**, Kim SJ, & Christou EA. Differential contribution of visual and auditory information to accurately predict the direction and type of stimulus. *10th Annual Neuromuscular Plasticity Symposium, College of Public Health and Health Professions, University of Florida*, 2015.
1. **Park SH**. Differential Effect of Visual and Auditory Information on Response Accuracy. *Graduate Student Research Symposium, College of Health & Human Performance, University of Florida*, 2014.

PROFESSIONAL AFFILIATIONS

- Society for Neuroscience (SfN)
- Society for the Neural Control of Movement (NCM)
- North American Society for the Psychology of Sport and Physical Activity (NASPSPA)
- American College of Sports Medicine (ACSM)
- Progress in Motor Control (PMC)
- International Society of Electrophysiology and Kinesiology (ISEK)

HONORS AND AWARDS

National/International:

- Graduate Student Writing Award, American Kinesiology Association, USA, 2019.
- Predoctoral Outstanding Research Award, Association of Korean Neuroscientists, USA, 2017.
- The Korean Honor Scholarship, The Embassy of The Republic of Korea, USA, 2017.

University of Houston:

- Poster Excellence Award, Mission Connect Scientific Symposium, TIRR Foundation, [Hyunje Park](#), 2024.
- Provost's Faculty Travel Fund, 2024.
- Faculty Excellence, [UH News](#), 2024.
- Scholars Walk, Featured Faculty Member, 2024.
- Summer Undergraduate Research Fellowship. [Yasmeen Elfeki](#), 2024.
- Provost's Undergraduate Research Scholarship. [Nicholas Macias](#), 2024.
- Summer Undergraduate Research Fellowship. [Nicholas Macias](#), 2023.
- Provost's Faculty Travel Fund, 2023.

Northwestern University & Shirley Ryan AbilityLab:

- 1st place Sarah Baskin Outstanding Research Award, 2021.

University of Florida:

- Dr. Stacy E. and Mr. Joseph T. Cutrono Conference Scholarship Award, 2019.
- Graduate School Doctoral Dissertation Award, 2019.
- C.A. Boyd Scholarship Award, 2018.
- Outstanding Academic Achievement, 2018.
- Dr. Christian W. Zauner Scholarship Award, 2017.
- Outstanding Academic Achievement, 2017.
- David & Linda McCaughey Endowed Scholarship Award, 2016.
- Outstanding Academic Achievement, 2016.
- Outstanding International Student Award, 2015.
- Outstanding Academic Achievement, 2015.
- Grinter Fellowship, 2014-2015.

Seoul National University:

- Honor and early graduation from undergraduate, 2010.
- Cum Laude, 2010.

RESEARCH SKILLS***Software and Statistical Techniques:***

- MATLAB
- LabVIEW
- Processing – Java programming
- Spike2
- Sony Vegas - video editing software
- SigmaPlot - scientific data graphing and statistical analysis software
- SPSS

Hardware and Data Collection Techniques:

- Surface Electromyography
- High-density Surface Electromyography and Decomposition
- Electroencephalography
- Inertia Measurement Units
- Motion Capture
- Force Plates
- Pressure Sensitive Walkway
- Instrumented Treadmill
- Load Cells
- Position Sensors
- Pressure Sensors
- Accelerometers
- Cable-driven Locomotor Training System
- Neuromuscular Electrical Stimulation
- Transcutaneous Electrical Stimulation
- Driving Simulator
- Eye Movement Tracking
- Lingual Control Measurement

EDITORIAL BOARD

- Korean Society of Sports Biomechanics

REVIEWER AD HOC

- Transactions on Neural Systems & Rehabilitation Engineering
- Transactions on Biomedical Engineering
- Journal of NeuroEngineering and Rehabilitation
- Neuroscience
- Neuroscience Letters
- Journal of Motor Behavior

- Frontiers in Physiology
- Physical Therapy
- Journal of Human Kinetics
- Research Quarterly for Exercise and Sport
- Brain Sciences
- Scientific Reports
- Frontiers in Human Neuroscience
- Plus One
- Experimental Brain Research

DEPARTMENTAL AND COLLEGE SERVICE

University of Florida:

- Undergraduate Research Award Committee, Department of Applied Physiology and Kinesiology, College of Health and Human Performance, 2018.
- President, Korean Student Association, College of Health and Human Performance, University of Florida, 2016 - 2017

University of Houston:

- Faculty Search Committee, Dept. of Health and Human Performance, 2023 - 2024
